Who Builds Your Clothes?

PERFORMANCE

Not Promises

Is what you want in your clothes. In the race for business extravagant claims may bring temporary success but only clothes that have the qualities to make good, build business permanently. The other kind may look good at first, but a short interval of wear soon uncover their faults.

"Master Built" clothes are thoroughly good from every standpoint.

The Styles are authoritative creations of fashion leaders and are the models that will be worn by the best dressed men in Canada.

The Fabrics and making are such as to be entirely above criticism.

If you have never worn a Master Built Suit or Overcoat you owe it to yourself to test our tailoring service this season.

We also deal in 20th Century Brand of Clothing, so can insure price and fit to suit—

Local Items

Read the Advertisements!

H. E. King, of Calgary was a visitor in town last week, renewing acquaintances.

Born—To Mr. and Mrs. A. T. Affleck of Seal, on Wednesday, October 4th, at the Alaskan General hospital, a daughter.

Mrs. Vick Shunn, who was at Rochester, Minnesota, returned to Oyen on Thursday morning.

Miss Robinson, who has been assisting in the Post Office for the last year, returned to her home in Medicine last week.

The Rev. S. D. Webster spent Thanksgiving Day with friends in Saskatoon.

M. A. Dickson, who has been night operator at the depot has resigned. He is now collecting for The International Harvester Company.

Mr. John Naismith Jr., has accepted a position as assistant postmaster in the Oyen Office.

Mr. and Mrs. Harris of Aberdeen, South Dakota, arrived in Oyen last Thursday, and are visiting at the home of Mr. and Mrs. Vick Shunn.

Word has been received here that Ben Smith was operated on at the hospital in Rochester, Minn., and is reported doing nicely.

W. H. Warrington of Alaska, was a town visitor on Saturday.

The neighboring towns plans are being made for skating and curling rinks. What about Oyen?

P. H. Peterson, spent three days in Calgary last week.

Mr. and Mrs. B. E. Kelly spent the week-end in Calgary.

Messrs. Jas. Couper and J. J. Holloway has purchased the Meat Market from H. C. Westby.

Dr. Lackner, Dentist, who has been spending two weeks vacation at Banff, returned to town last Friday morning.

Owing to increased volume of business, Mr. Wilson is compelled to build a large addition on his billiard hall.

Born—To Mr. and Mrs. A. Kramer of Excel, a son on Tuesday, October 3rd.

Mr. B. W. Moore has purchased the Livery Barn owned by T. Lafferty.

Born—to Mr. and Mrs. John Horne of Oyen, a daughter, on Monday, October 9th. 1916.

The new hospital building is finished. It is located on the property adjoining the Methodist Church on the west. It will be opened up today, and will be in charge of Miss Mabel Iverson.

Mrs. Frank Kiene, of Kenndy, Minnesota, is visiting her sister, Mrs. P. H. Peterson.

Lemuel G. Chapman spent Thanksgiving with friends in the Acadia Valley district.

The new elevator will be completed early next week. Voss Brothers are the contractors.

Wheat is the same price today as it was a week ago. The farmers are not worrying about getting their threshing done, as this fine weather will likely continue, and the price of wheat undoubtedly remain near the dollar fifty mark.

It is rumored that Messrs. Miller and Peterson are going to build an elevator at Sibbald.

Lieut. G. H. Scott Memorial Service AN IMPRESSIVE SERVICE

A memorial service held in the Methodist church on Tuesday night to commemorate the death of Lieut. G. H. Scott, killed at the Somme. A large crowd showed their respect for the deceased soldier.

The Rev. Webster took as his text John 15:13 "Greater love has no man than this that he is willing to lay down his life for his friends." In discussing the question, he dealt with the thought of sacrifice. The Christ sacrificed all to vindicate a principle. The Bible said He left heaven came to earth and suffered opposition, scorn, malice and hatred, and at last paid the supreme sacrifice in giving his life to prove His faith in His principles.

The deeds of men to-day were proving that society was not decadent, but were willing to go to death in the path of duty and devotion for the vindication of the principles of righteousness and liberty. Life was sweet to all men. The criticism that men enlisted for love of adventure was true only of a minority of the half million enlisted from our Dominion. Such men as Lieut. Scott were no adventurers, but the truest patriots, willing to give their lives for the countries good, with no hope of reward except that of retaining a good conscience and a full knowledge that the path of glory leads to the grave. To leave home, a good business, and loved ones, was the height of a true Christians consecration.

Pte. Francis Crockett Wounded

Official intelligence has been received by Mr. J. W. Crockett, Jeweller, that his son, Pte. F. Crockett has been seriously wounded by shrapnel shell. Pte. Crockett was seventeen years old when he enlisted with the 63rd Battalion stationed at Calgary which left for England a year ago last September. He had been in the firing line about two months.

The following is the telegram received—Mr. Crockett, Jeweller, Oyen. Sincerely regret to inform you that Pte. Francis Crockett, infantry, officially reported admitted to Military hospital, Chatham, suffering from wounds on legs, arm and face received by shrapnel shell. Further particulars when recorded.—Official Recorder, Ottawa.

Sterlin Acquitted

On Thursday last at the supreme criminal court, Calgary, Ben Sterlin of Sibbald, charged with manslaughter, was acquitted.

The case was the result of a quarrel in a restaurant in Sibbald, on June 24th. of this year, when Sterlin hit Ole Anderson on the head with a bottle. Both poisoning set in, and the injured man died about ten days after.

The jury in summing up the evidence, came to the conclusion that Sterlin had acted in self defence and that Anderson had started the quarrel which cost him his life. The jury were not long in arriving at a decision, and acquitted Sterlin.

The Need For National Service

New Zealand has sent 60,000 men to take part in this great war, out of a white population of one million. In order to keep this army at full strength she has organized a system of recruiting whereby her army may be kept up to full strength.

Canada has sent about 325,000 men to the war and has promised to supply a half million, as her share in helping to win a war for "Right and Liberty."

In order that Canada should get the required number of men available, it is only right that some system for recruiting of these men should be organized, especially in a country like ours where there is such a mixed population.

The National Service system will no doubt, be of great help in getting to know who can serve their country in this great struggle. It will not only be a benefit in this respect, but also to the industries of Canada. It will be able to determine who could go and who should stay at home. This system will be far better than recruiting at random, because it will not draw men from industries where their services are of more value to the state than if they were serving their country in the trenches.

Canada's casualties up to the present are already about forty thousand, and if she intends to maintain her army at full strength in the field, she is bound to have some system whereby she can draw her men from the country without bringing the industries of Canada to a standstill.

In Australia Mr. Hughes has secured the third reading of the Referendum Bill, which gives the electors power to say whether they will be conscription in Australia or not. The voting was forty-nine to twelve.

The Germans do not like the tank. That is little surprising, for they were not intended to. But their objections to it are decidedly (if unconsciously) humorous. Our new weapon, they say, ought not to be used in "civilized" warfare, which might well be its very justification for using it against Germany.

Sir, Canada needs you today. If you have not any home ties, it is your duty to enlist. If it becomes necessary to have conscription, it is caused by the so called slacker.

Excel Red Cross Society

Annual Meeting

The annual meeting of the Excel Branch of the Red Cross Society was held at the home of Mr. I. Schrag on Saturday evening, Sept. 30th. The attendance was good considering the disagreeable weather.

The Secretary-Treasurer's report was read and accepted, which in part is as follows:

To the officers and members of the Excel Branch of the Canadian Red Cross Society,

I beg to submit the report of the Excel Branch of C.R.C.S. since its organization on March 23rd, 1916. At the time of organizing, fifteen members were enrolled, and at present our membership has increased to more than double that number.

During these months considerable work has been done by the society. Supplies have been bought at frequent intervals from our Provincial branch in Calgary which have amounted to \$111.75—a good showing for so short a period in a young society.

The total receipts have been \$151.90, while expenses have amounted \$123.60, leaving a balance on hand of \$28.30.

The society meets at the homes of the members every other Thursday where a lively interest is shown by the good attendance and work accomplished.

We regret to have lost three of our officers recently by their removal from this vicinity, namely Mr. and Mrs. Bailey and Mrs. Collum who never spared themselves in promoting the welfare of the Society.

It is with sorrow that we have to report our loss by death of one of our most esteemed and energetic workers, Mrs. Fisk, whose last work on earth was done for the Red Cross. The members of the Society extend to her bereaved husband their sincerest sympathy in his great loss.

The following officers were elected for the ensuing year:

Chairman, Mrs. E. Gullekson; Vice-Chairman, Mrs. R. Anderson; Sec-Treasurer, Miss E. Church; Executive: Mrs. T. Swindolhurst, Mrs. A. Gullekson, Mr. I. Schrag, Mr. E. Church, Mr. W. Kibben.

The next regular meeting will be held October 12th, at the home of Mr. Schrag. The society will be glad to welcome new members and accept any assistance possible in this worthy cause.

Speed and Endurance

Snyder, Oklahoma

CHEVROLET WON TWICE

In the automobile races at Snyder, Oklahoma, Tuesday and Wednesday a Chevrolet 400 car, sold by Carr & Pritchard to Joseph Roark, of Snyder, won first prize both days—an indication that the Chevrolet has both speed and endurance.

The course was 10½ miles in length, starting from a dead stop in Snyder, making two square turns in the town and running five miles north, then turning in the road and running back over the course. Twelve bridges and culverts were crossed in the course. The first day the Chevrolet finished a mile and a half a head of the only other car that stayed in the race, finishing in 13 minutes and 12 seconds. The second day the course was covered in 12 minutes and 43 seconds, cars of three other makes being entered.—Frederick Lender, Oklahoma.

The Market Report

Contributed By Randall, Gee & Mit-

The wheat market is feeling the effects of the laws of supply and demand. The American Government Report, which was published to the public on Sept. 8th, showed a total yield of American spring and winter wheat of 611,000,000 bushels. It is considered to be a fact that the requirements of the United States for feed and seed is 600,000,000 bushels annually, in other words, this year's

crop in the States will not show any exportable surplus. The yield in that country for the crop of 1916 is the lowest in the past twelve years; in 1904 their total harvest was 552,000,000 bushels. But even of more importance to consider is the very abnormal conditions existing in the world's wheat situation, these are

bullish in a period of great inflation of values, and we must also consider the big decrease in the Canadian crop as compared to last year, with a possible decrease to below normal production.

The situation, of course, is not as desperate as it sounds because last year we harvested, of a sort, a great deal more than was required to meet all commercial demands, and the surplus gives us a margin of safety. It

is a surplus, however, that eases to some degree an acute situation and not a surplus that contributes any depressive influence on the price. We have not only our own wants to fill, but there will be contributions to the

any decided change in economic conditions abroad and these contributions will, with domestic needs, take the slack out of the wheat pit.

fresh impetus from the government report is open to question, not because the showing will fail to be very bullish, but because the high price level intimidates buying for a still greater rise. It is purely a commercial

Wire information from outside markets indicates that there is a tremendous export business being worked.

ed. In addition to the large export, the local milling situation at Minneapolis has forced that market to reach out in all directions in an effort to obtain choice milling wheat to use with the inferior wheat that is being

shipped from the spring wheat country, in order to hold up the standard of their flour. In one day they worked 100 cars from the winter wheat country, paying the highest premium on the crop.

The one factor that is liable to depress prices is success by the Allies in the Balkans. This would remind the trade of the Russian wheat that is held in store awaiting the opening

of the hardships and remove from the market the excellent export buying powers that are now very much in evidence.

New Laws Regarding Deserters

Two Orders-in-Council have been passed stiffening the law with regard to dealing with deserters from the expeditionary forces and with regard to seamen who refuse to obey orders on ships requisitioned for His Majesty's service. In the case of soldiers who desert or absent without leave it is provided that they may be summarily tried by any justice of the peace, police or stipendiary magistrate without regard to territorial jurisdiction and sentenced on conviction to imprisonment for a term not exceeding two years. The production of a service roll, or attestation paper purporting to be signed by the accused and a written statement from the officer commanding a military district, showing that the accused is absent from his corps, shall be deemed a sufficient proof of desertion.

Oyen Red Cross Society made these necessities for our soldier boys at the Front

Western Products Win Gold Medal

Westerners will learn with interest that a gold medal was awarded to the Canadian Pacific Railway for the excellence of its exhibits at the Quebec Exhibition a few weeks ago. The gold medal was for the collective grain display, which was gathered in Western Canada, and was representative of the various grain crops of the Western Provinces. The daily attendance at the Quebec Exhibition ran as high as 75,000, and a very great interest in the agricultural possibilities of Western Canada was shown by the visitors.

Notes of Science

Light travels 186,000 miles a second. Sound travels at the rate of 1000.5 feet per second.

If milk is placed in red bottles it will not spoil as readily as when placed in uncolored bottles.

A calorie is the amount of heat that it takes to raise one cubic centimeter of water one degree.

It is the ultra-violet rays that cause the face to become sunburned.

In the Philippines, locusts are being killed by the use of chlorine gas.

A Few Odd Local Items

Some fine weather, smile,

E. A. Acked, of the Massey-Harris Co. Calgary, was in town yesterday.

G. F. Garbutt, expert for the Fairbanks Motor Co., was in town Sunday.

Mr. and Mrs. E. J. Clough, of Acadia Valley, are in town today.

C. E. Beard, who has been in the employ of H. C. Westby, will open a Meat Market in the old sample room of the Hotel, at an early date.

C. L. Dunford and W. Balantyne were in Youngstown, day before yesterday.

OilPull Means This

FUEL at one-half the price means lower operating costs, smaller upkeep expenses and bigger profits.

Bear in mind that the OilPull is the only tractor that will successfully burn kerosene and cheaper oil fuels at all loads, under all conditions—all the time.

The OilPull, through deep plowing and thorough soil working, is increasing crops for a great many Eldo owners—in some cases doubling them. Burning kerosene, the OilPull adds this increase to your bank account at the lower possible cost.

A more dependable tractor than the OilPull can't be bought and you will find it able to take care of all your power jobs, whether draw-bar or belt. Two sizes, 15-30 and 30-60 horsepower.
